

# ***Al-Burhan Group***

your route to Iraq

# Our Sectors:

## Aviation

Al-Burhan Group has a well established division in the field of aviation infrastructure construction and management services; a rapidly growing sector in modern Iraq.

## Construction

Contracting and construction form a key part of Al-Burhan Group with a diverse range of capabilities in planning, implementing and rehabilitating building & industrial projects.

## Electricity

Our Technical and Engineering Departments facilitate the design, construction and modernisation of power generation facilities and networks throughout Iraq.

## Oil & Gas

Development of natural resources is a key priority for Iraq. Al-Burhan Group provides various support services to the Oil & Gas exploration and production industries.

## Agricultural Services

Al-Burhan Group as part of its diverse business portfolio designs and operates industrial scale agricultural facilities in Iraq serving the growing needs of the national population.

## Consultancy Services

We provide a wide range of business support services. The company can assist with commercial, financial, legal and technical consultative business requirements.

## General trade

Aside from its specific technical sectors, Al-Burhan Group also encompasses a wide range of other maintenance services from machinery servicing to spare parts sourcing & installation.

## Railway

We focus on providing railway consultancy, planning and construction services encompassing network building and renewal as well as rolling stock provision and maintenance.

## Travel

Al-Burhan Group through IKB Travel & Tours provides customers with airline tickets to Iraq and other global destinations as well as custom tours, from its London office.

# About Us:

**Al-Burhan Group**  
your route to Iraq

[www.AlBurhanGroup.com](http://www.AlBurhanGroup.com)

# Oil:

Al-Burhan's diverse portfolio of operations has recently expanded to include operations in the Oil Industry. The bright economic future predicted for Iraq is partly attributed to its vast oil reserves.

The Iraqi oil industry is currently at an early stage of development with vast amounts of investment needed to extract and refine its natural resources. A large number of experienced international energy companies are working towards this goal. Iraq is projected to become a major oil producing nation.

Al-Burhan Group, with its extensive experience in conducting business operations in Iraq, has positioned itself to offer support to this natural resource exploration & development programme in the wider region.

Our Group provides a number of tailored services to the oil industry. These include; HR, facilities construction, supply of specialist machinery and the provision of ground surveys.

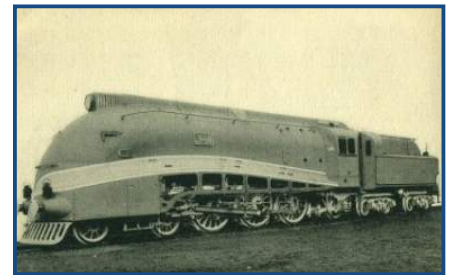

# Iraqi Republic Railways:

Al-Burhan Group has a long established history of cooperation with Iraqi Republic Railways (IRR). Utilising an experienced team of consultants, architects, engineers and planners, the Group is in a position to undertake railway construction and rehabilitation projects at short notice. There is unprecedented demand for railway engineering solutions in Iraq today.

Our Group has grown quickly providing services for the Iraqi national railway network over the last sixty years. The railway network of Iraq is in urgent need of expansion and modernisation.

The system connects Iraq to the wider region of the Middle East and is utilised for the import and export of cargo and goods as well as the transportation of passengers throughout Iraq vital to the projected growth of its economy.

20<sup>th</sup> Century British 'Pacific' Steam Engine

IRR in collaboration with Al-Burhan Group is currently undertaking a number of projects on various scales with an overall aim of maintaining and expanding the network as rapidly and efficiently as possible.

Natural Paints:

# Aviation:

Iraq, due to its favourable geographic location, is positioning itself as a regional aviation hub for both passenger and cargo air traffic in the Middle East. Al-Burhan Aviation, a subsidiary of the Group is focused on the development of the Iraqi aviation sector.

The company has partnered with global services company Serco to install and administer Iraq's national Air Traffic Control systems in order to allow the country to fully meet international standards.

In addition Al-Burhan Aviation has signed a contract with security specialists G4S for the safekeeping of Baghdad International Airport. The Group is committed to turning Iraq into a world class aviation hub and destination for the benefit of the national population and international travellers.

Al-Burhan Aviation, aside from security provision and ATC management, is heavily involved in promoting Iraq as a tourist and business destination. Through partnerships with a variety of global airlines, the company is marketing the Iraqi leisure & business air sector market to the world.

A new Baghdad Airport office will operate in conjunction with our existing London based travel agency 'IKB Travel & Tours' to sell air tickets on behalf of partner airlines. This new office will provide customer service and administration facilities to manage the new business venture. The office is expected to commence operation in Winter, 2010.

“ Iraq is projected to become a major hub for Middle Eastern air traffic. ”

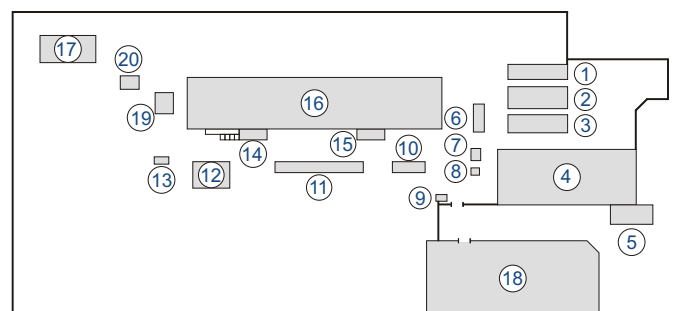

# Concrete Sleeper Factory:

Modern-day Iraq is experiencing an unprecedented level of growth in the passenger and cargo railway sector. Iraqi Republic Railways is determined to meet the needs of the nation through the undertaking of a massive railway modernisation programme. Al-Burhan is proudly contributing to this through production at its Concrete Sleeper Factory in Abu Ghraib. The factory started production in autumn 2010 and has the capacity to manufacture 2,800 pre-stressed mono block concrete sleepers per day.

**INNOVATIONS**

Al-Burhan Group has led pioneering efforts in developing international business relations within modern Iraq. With the nation undergoing immense social and economic transformations; our Group has proudly led the way for international companies and organisations to enter and establish themselves in the Iraqi market.

Al-Burhan Group works hard to drive the latest global technologies into Iraq across all industry sectors. Whether setting up high-tech aviation management systems or

providing the latest locomotives for the railway sector; our Group spares no expense or effort in bringing the most advanced machines and systems to Iraq.

**VISION**

Our Group strives to operate by its mission statement of 'Your route to Iraq.' We aim to take every effort to fully modernise and rehabilitate Iraq inline with global standards and expectations.

Iraq is undergoing rapid expansion in almost every sector from aviation to energy policy. Al-Burhan Group is proudly playing a part in these tremendous efforts to help create a stable, modern and developed nation for its people.

Guiding foreign technology and investment into Iraq creates a position of great responsibility to ensure optimum outcomes for all stakeholders involved.

**SLEEPER FACTORY**

This is one of our most ambitious and prestigious projects to date completed with the technical assistance of United Kingdom based company RMS which manufactured the factory machines and equipment.

Abu Ghraib Concrete Sleeper Factory

This new factory will rival any other production facility in the world in terms of daily production capability. The factory has the capacity to produce over 2,800 concrete sleepers per day.

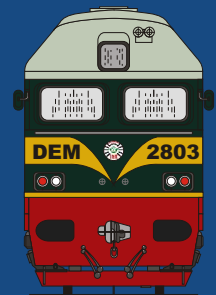

Location of the Factory

**IRR**

Al-Burhan Group has been working along side Iraqi Republic Railways for several years, bringing technology and raw power into the locomotive industry.

Al-Burhan Group has been the main supplier of concrete sleepers for the rail way network, delivering large quantities as and when the need arises.
